## PROGRAM OF BIG T-W-DAY FARMERS' MEETING

### GREAT PROGRESS IF WE GET BY WITHOUT STORM

One Thought Stands Out In Minds of Residents of Lake Region

AN ODD-NUMBER YEAR, PROMISES IMMUNITY

First Time Country Has Had A Chance To Show What It Can Do

"If we get by without a storm."

This phrase, usually open or concludes every discussion among residents of the upper Everglades on the prospects for the coming season. The quelling of it may be unpleasant to the genial souls who do not want to be reminded that weather is a factor in making crops but no true-to-likeness sketch of conditions in the Lake Okeechobee country can be drawn without letting these words from the speech of the common people.

"We are going to have the best season we ever had if we get by without a storm," everybody says. "If we get by without a storm this season this country is going to boom."

We are going to get by without a storm, if we are going to make no progress even if we do have a storm, if there is one, we will be overcome, as the effects always are overcome. The recent-comers to the country are the ones who are a bit apprehensive—and this apprehension, by the way, probably is no more mutual in the upper Everglades than it is among residents of the east coast; the old-timers are not disturbed in this summer of 1929. The country was flooded in 1922 and in 1924 and again in 1926 and then there were evergladed years, and this is 1929, and the country has been here for 1923, 1925 and 1927 when there were no floods.

If we get by without a storm this year, we will not be sorry about 1930, even-numbered though it is, for by that time the facilities for controlling excess waters will be ample.

The flood that followed the hurricane in September of last year kept the truckers from making a fall crop, but the statements of condition of the three banks in the upper Glades show resources and deposits approximately equal to those of this time in 1928. For the country to have as much money as it had a year ago, after carrying the losses of the "hurricane" and flood and missing a crop, is as much as we could expect—in fact, more than we could expect.

There have been some additions to capital, however, that are not represented in the bank statements. Hundreds of acres of land have been cleared, and so it counts near a hundred dollars' worth of "clear land, that is a slight asset."

The buildings have not only been built back; they are on better foundations and placed on the foundations more securely.

There are more miles of railroad, highway and tele-

### PRACTICAL TALKS WILL SHOW HOW TO MAKE MORE MONEY

Five lake shore communities—Pahokee, Belle Glade, Chosen, South Bay and Canal Point—are co-operating in putting on the programs of the two days of farmers' meetings which are to be held Tuesday and Wednesday of next week, July 23 and 24, on the grounds of the vocational school at Canal Point.

Professor H. L. Speer, the teacher of vocational agriculture, says they are more than "farmers' meetings"—"They are meetings for all of the people of the upper Everglades," he says.

It is the equivalent of a farmers' institute, and of more practical value than a fair. Men who have studied farm problems and have acquired information from their studies are expected to do no profess to know it all will give their ideas and will swap views with other men and women who have had different experiences. The discussions are expected to be of as much value as the set speeches.

The program will open Tuesday forenoon at 9:30 o'clock with community singing; then the introductory statement, and at 10 o'clock Dr. R. Allison will talk on "Fertilizers for Muck Lands."

Dr. Allison is from Everglades experiment station; he is one of the foremost soil specialists in the country and his studies of the soils of this region led to the discoveries of the value of applications of mineral elements which have been very valuable to the country. To every land owner and farmer it will be worth money to hear him. A discussion will follow in which all are privileged to take part if they don't take up too much time.

Clifford B. Savage will talk at 11:30 on "Importance of Seed Selection." He is a college man who has dealt with practical matters in the Everglades long enough that he combines it with his technical training.

At 10:45 M. R. Ensign will talk on "Truck Crop Diseases." Every truck farmer should attend and hear this and pay close attention, for Ensign is really good.

A basket dinner will be served at the conclusion of Mr. Savage's address, at 12 o'clock.

Everybody is invited to come prepared to help serve a basket dinner; in other words, bring a big basket well filled with coffee, sugar, cream and feed tea will be served free by the committee in charge.

While the men's section meetings are being held, Mrs. Messer, the men's demonstration agent, will be conducting meetings for the women.

For the afternoon there will be a general assembly at 2 o'clock, and N. R. Nehrf, the state extension poultry expert, will make a talk on "Culling," followed by Jack Zimmer, executive vice president of the Palm Beach Chamber of Commerce, who will talk on "The Importance of Agriculture to the Development of Palm Beach County." Professor H. L. Speer will talk at 3:30 on "Ornamentals for Glades Homes."

The first day's program will conclude with an address at 4 o'clock by Phil Taylor of Tallahassee, from the office of the state department of agriculture.

Second Day Program—Wednesday.  
9:30 a. m. Community singing.  
10:45 a. m. Canning poultry, by N. R. Mehrtorf, Extension Poultryman.

10:30 a. m. Insect Control, by M. R. Ensign, Experiment Station, Gainesville.

11:15 a. m. Staple Crops for South Florida, by H. S. McLendon, Agricultural Agent F. E. C. Railway.

12:40 a. m. Cotton Production, by S. W. Hiatt, Lake Worth Dairymen's District.

12:00 p. m. Fish Fry.

2:00 p. m. General assembly. Latest Developments in Eradication of the Mediterranean Fruit Fly, by Frank Stirling, of State Plant Board.

2:45 p. m. Address, L. M. Rhodes, Market Commissioner of Florida.

3:30 p. m. Home Demonstration Address.

Pepper growers in the state will be interested in joining the movement.

Different committees were named and the grading of peppers was discussed and changes suggested in the grades as now laid down by the federal government. The meeting adjourned at 9 o'clock.

It was pointed out at the meeting that federal laws now make such a clearing house for the state and to include all pepper growers and shippers similar to the clearing house now being formed by the celery interests. The proposed clearing house would be for peppers only but a combination with the celery men was suggested and may be effected, it was said.

It was pointed out at the meeting that federal laws now make such a clearing house for the state and to include all pepper growers and shippers similar to the clearing house now being formed by the celery interests. The proposed clearing house would be for peppers only but a combination with the celery men was suggested and may be effected, it was said.

### MARKET FOR CORN IS ENLARGED BY MORE COWS, HOGS

Development In One Section of Everglades Benefits Other Sections

AND ALL HELPED BY LOWER DRAINAGE TAX

Big Dade County Farm No Longer An Experiment. Problem Solved

Dairying, hog raising and other branches of the live stock business will make a market for corn and forage crops in another part of the state. This is a reminder of this in the fact that E. R. Graham, manager of a big farm in Dade county, was in the Belle Glade district the first of the week looking over the corn fields with a view to buying Lake Okeechobee corn for his Dade county hogs and cattle. Whether he will buy any will depend on its price and the cost of delivery.

Mr. Graham organized a company last year and took over a block of the Pennsylvania Sugar Co. land for an experiment in general farming.

"We are past the experimental stage now and are on firm ground instead of wading in air, for we know just where we are at from careful study of all results of all operations, and we feel encouraged at the prospects," he said.

"We have got to get our costs down and keep them down if we are to make any money, and this is true of all other who would use land for general farming—and there is so much land that a lot of it has got to be used for general farming if it is used for anything, and it must be used for something or the owners can't pay the taxes."

"It looks as if the new Everglades drainage district will cut the taxes and if it does it will allow land owners to hold their lands and pay their taxes and the district will get more revenue that way than if the land goes under tax certificates and doesn't render any revenue to the district or the state or county."

All he will do on the big farm for the next thirty days will be to find enough work to keep his organization together and plan the fall and winter and spring operations, Mr. Graham said.

In anticipation of a demand for pastureage for dairy cows next winter Mr. Graham is laying-off fields for planting to Java and Bermuda grass. The Java grass he bought in Georgia this summer and is doing well, and of the wild cat he got from the LaBelle district he says they are the wildest things you ever saw but are doing well when on range. The LaBelle cats are not doing so well when cleared in forty-acre fields; they are not "contented cows," for they seem to resent the restrictions on their liberties.

On all of his trips Mr. Graham carries samples of the string beans that were put up at the farm's cannery, looking for buyers, for he finds the distribution of the product more of a problem than the growing and canning. He shipped a car of canned beans north last week, half of which had been sold, o. b. and the other half consigned in order to take advantage of the car lot freight rate.

### Sell Some Seed For Peppers, Eggplants

CLEWISTON, July 17.—The W. S. Harvel Seed Co. reports some small sales of pepper and eggplant for fall seedbeds, some of which are now being planted, but at the present time nothing like an approximate forecast can be made of the truck plantings contemplated in this territory. About four hundred acres is so far known to be definitely planned for fall crop between here and Sugar Junction.

### ALL CAN AGREE IN EFFORT FOR LAKE CONTROL

Legislature Has Provided Practical Method For Co-operation

NEXT THING IS TO MAKE USE OF METHOD

Argument Must Be Presented To Congress For Federal Co-operation

Pressing of efforts for the control of Lake Okeechobee and the prevention of floods in the Everglades by utilizing the provisions of the act of the 1929 session of the Florida Legislature which created a flood control district is the practical program on which all of the people in south Florida can unite.

It is the immediately practicable program in which the commercial organizations on the east coast can join with the residents in the Everglades for the benefit of all, a program in which local interests can combine without jealousy or unfriendly rivalry.

The act of the Legislature which created Okeechobee Flood Control District combined the twelve south Florida counties and provided the method recommended by engineers, financiers and members of Congress as the method by which the nation's interest in the protection of life and property and the utilization of the excess waters of Kissimmee river for the creation of a cross-state waterway.

The State of Florida is not obligated for any expenditure, but state recognition is given to the project and a measure of supervision is to be exercised by the presence on the board of governors of the flood control district of five state officials who are also commissioners of Everglades Drainage District and trustees of state-owned lands situated in the district and which state lands are subject to taxation for the improvement proposed to be made.

By the control of Lake Okeechobee and the prevention of its overflow, life and property are to be safeguarded and regions of the district, after 1926 and 1928 avoided. It is estimated that the cost of the construction program will be no more than the National Red-Cross and other relief agencies have been called upon for in the past six years to compensate for the damages done by the action of hurricane winds on the surface of Lake Okeechobee when the waves broke down the levees and the water poured in on the homes and farms of the residents.

### TO ASK CHARTER AT PAHOKEE FOR LUNCHEON CLUB

Business Men See Need of Fellowship In A Civic Organization

FIRST STEP TAKEN FOR A ROTARY CLUB

Jordan Enlists Interest and Meeting Will Be Held Tomorrow

Believing that Pahokee has attained a size of position that give it need for a luncheon club and desiring that its civic club of this type be an off-shoot of a leading national organization, C. A. H. Jordan, the druggist, formerly of Homestead, where he is a member of the Rotary Club, has proposed the organization of a Rotary Club for Pahokee.

Fifteen persons in non-competitive lines of business are required as members to get a charter from Rotary International.

With B. Elliott, the Pahokee representative of the Ford line, Mr. Jordan made a quick canvass of the business and professional people of Pahokee yesterday and the responses to his suggestion encourage him to believe that a Rotary Club can be organized. Mr. Jordan has called a meeting to be held at 2 o'clock tomorrow (Saturday) afternoon in the room over the drug store, where the matter will be fully considered.

He has taken the matter up with Rotarians at Homestead and they like the idea so much that a delegation of the Homestead Rotarians will come to Pahokee and attend the meeting tomorrow and advise with the local men as to the processes of procuring a charter and organizing.

### Run Bare Beach Pump, Help To Farm Work

CLEWISTON, July 17.—The pump plant at Bare Beach reported to have been running most of the time the past week, which has greatly facilitated the work on the Seminole Farms tract east of the pump plant, reports J. B. Hutchinson, who is assisting in the field operations there. Water is nearly at ground level two miles south of the county road east of town, at Beach camp.

### Postal Telegraph Looks For Locations

The Postal Telegraph Co., a competitor of the Western Union, probably will open an office in Pahokee and may have offices at Canal Point and other towns in the upper Glades.

A commercial agent of the Postal was here Wednesday and called on W. H. Vann of Canal Point, E. G. Kilpatrick of Pahokee and others and was promised free rent of an office at Pahokee.

Mr. Vann said he understood the plan was for the Postal to lease wires from the telephone company, which would make it unnecessary for new poles to be erected.

Persons who want the Postal to come into this territory are asked to write to the manager of the office at West Palm Beach and state their views.

### Last of Law Suits On Drainage Bond Act

Federal Judge William B. Sheppard, sitting at Pensacola, has dismissed from the docket the last of the several suits that grew out of the Everglades \$200,000 bond law enacted in the administration of John W. Martin.

The case dismissed was an injunction brought by Spitzer-Rorick Co. of Toledo, O., and New York to prevent the sale of the attempted issue to Eldridge & Co. and Dillon-Boss. As the 1929 session repealed the Martin bond act there was nothing for the federal court to decide, hence the dismissal of the suit.

### PLENTY OF LAND FOR TRUCK CROPS AND SUGAR CANE

Two Industries Can Prosper Side By Side, Each Benefiting Other

BUT LAKE OVERFLOWS MUST BE PREVENTED

To Use of Land and Tax Payments

However extensive the planting of sugar cane may be around Lake Okeechobee it will not smother the trucking industry; plenty of land will be left for vegetables, and the upper Everglades will continue to be the best trucking country in the world—this is the opinion expressed by persons who have given thought to the subject.

The development of the sugar industry has already helped the trucking industry and will continue to help it, it is pointed out; the installation and operation of sugar mills has brought about extension of railroads which serve the truckers as well as the mills, and has led to the extension of telegraph, telephone and power lines to render service to all, and increased population so as to warrant the improvement of other services.

Instead of encroaching on trucking land, however, it is argued, sugar cane has absorbed some land that would otherwise be planted to vegetables without yielding profit to the growers, much of such land being in temperature zones that allow its use only in fall and spring when production is heavy and prices low.

W. T. Wallis, who as head of a civil engineering firm with a large practice in the upper Everglades and agent for several non-resident owners is in position to judge conditions accurately, is of the opinion there will always be trucking land enough to grow all of the vegetables the markets will take at profitable prices.

J. B. Jeffries, chairman of the board of supervisors of South Florida conservancy district at the south end of the lake, says: "The higher value of land on the shores of the lake will make it the policy to reserve such lands for vegetable crops and he fixes three miles as the zone ultimately to be devoted to vegetables, sugar cane to be grown in areas to which it has not yet extended."

A point of view of the total rainfall since January 1, 1929, 27.43.

### AMOUNT OF RAIN AND LAKE LEVEL ARE JUST RIGHT

Best Mid-Summer Conditions That Ever Existed In Upper Glades

CANAL OUTLETS OPEN IS HELPFUL POLICY

Heavy Rains Before End of July Make Half of Normal For Season

The amount of rainfall in the Lake Okeechobee region and the elevation of the lake and canals and the policy of open outlets voluntarily adopted by the administrators of the drainage districts make the best mid-summer condition that has ever existed. Total rainfall at Canal Point since the first of the year to July 14, as registered by C. P. Sheffield at the U. S. canal-station, was 27.43 inches. This was a bit more than to the same date in 1926, when the amount of rainfall for the first six months was 27.22 inches. In 1927, up to July 14, the rainfall was 15.64 inches and in the same period in 1928 it was 27.43.

The Climatological Data sheet for June, issued from the Jacksonville office of the U. S. Weather Bureau, shows the rainfall for the month at Kissimmee but the figures for St. Cloud are 5.54, which is a bit under the normal rainfall for that point. Arcadia's rainfall was plus and Avon Park's minus, and the outlets open there is no reason to apprehend that it will go to an overflow stage.

Lake Okeechobee is lower than the stage usually for if at this season, and with nearly half of the rainy season gone and the outlets open there is no reason to apprehend that it will go to an overflow stage.

### Ask Appointments As Justice, Constable

A petition has been sent from Pahokee to Governor Carlton requesting the appointment of J. Roy Lang as justice of the peace and J. W. Humphries as constable for district No. 7, which embraces Pahokee and Canal Point. Mr. Lang is an attorney who came to Pahokee from Bradenton recently.

### BAAPTIST PASTOR AT MOORE HAVEN RESIGNS

Rev. J. N. Edmondson has resigned the pastorate of the Baptist church at Moore Haven, Miss., and has moved to Mount Vernon, Ill., his former home. He was at Moore Haven for three years. He says his stay in Illinois will be of the nature of a vacation and he expects to return to Florida in the fall.

### GLADES WEATHER

Temperature and rainfall at Canal Point, Fla., for week ending, July 14th, 1929:			
8	89	68	1.28
9	87	68	1.21
10	86	67	0.03
11	86	67	0.67
12	86	67	0.97
13	88	67	0.34
14	89	68	0.00
Total	87	67	4.50
Average since January 1, 1929, 27.43.

## PAHOKEE

Mrs. Perkins' children left Friday for a visit in Georgia. Mr. and Mrs. Bill Cochran returned from their trip last week.

Mrs. R. J. Simmonson motored to West Palm Beach last week. Mr. and Mrs. Duncan Padgett spent the week end in Hollywood.

Mrs. W. P. Walker and son, Robert, are in Tennessee on their vacation. Mr. Grant and family of Miami made a visit to Pahokee last week.

Mr. Sander's mother and father of Alabama are visiting her this week. Mr. and Mrs. Carl Cone returned from their trip in Georgia Wednesday.

Mr. and Mrs. S. A. Barfield left Sunday for a week or ten days visit in Orlando. Mrs. Lillian Medlen has taken over the management of the Lake Park Hotel.

Mrs. Tabb who has been ill for several days is well and able to be up again. Mrs. Johnson and the children left Thursday for a two month vacation in Alabama.

The colored school was supposed to start Monday but the principal failed to be present. Mr. and Mrs. Charles Moran made a business trip to West Palm Beach, Thursday.

John Hawkins, son of Mr. and Mrs. E. A. Hawkins has been ill for several days but is improving. Dr. W. L. Armstrong and family have left their vacation in Colorado, where they used to live.

Mrs. Shive says that she is doing nicely with her Lake Front filling station, better than she expected. Many people are cleaning and improving their yards. This will be a great help to the looks of Pahokee.

The Everglades Carpenters' Union held its regular weekly meeting Monday night at the Pahokee Woman's Club building.

Mrs. W. A. Howell made a combined business and pleasure trip to West Palm Beach, Thursday, and returned Friday.

Mr. and Mrs. Tom Shepard and Bobbie Joe Sanders and Mr. and Mrs. Tabb and David Tabb returned from Fish Eating Creek Wednesday.

Mr. and Mrs. L. W. Hubbard have returned from a trip to Miami and Fort Lauderdale. They visited relatives, some of whom they had not seen in twenty years.

Mr. and Mrs. H. C. LeMaster and Capt. Pace of West Palm Beach spent Sunday with Barfield. Little Elizabeth LeMaster is spending the week with her uncle, Charles Barfield.

Thomas Hunter, with his brother, William Hunter, are at the Lake Park Hotel. They came from Fort Lauderdale June 20th. Mr. Hunter is supervising the rebuilding of his ridge house on the Bacon Point road. Mrs. Hunter is

remaining in Fort Lauderdale. All the house is completed.

A special meeting of the town council was held this week to authorize a payment on the town hall.

Mr. and Mrs. S. W. Powell returned the first of the week from a week's stay at Safety Harbor, immensely pleased with the experience.

J. C. Lastinger has taken agency for the Davis Co. of Chicago and is taking orders in connection with his carpenter work.

The Pen Sunday School class of the Methodist church, taught by Mrs. Shive, has just finished a contest for attendance and scripture verses each Sunday. Winners were Grace Hawkins, Leona Miller, Hazel Elliott, Mamie Stead.

The prize will be a Bible with the name in gold. Funeral rites for John R. Spomer, 21, of Pahokee, who died Thursday last week as the result of injuries sustained several months ago in an automobile accident, were held Saturday afternoon at the Mizell Mortuary. Burial took place at Woodlawn cemetery in West Palm Beach.

**Picked Teams Play Today At Pahokee**

A picked team from the sugar mill at Canal Point and a Pahokee team were scheduled today in their second last game of the season on the diamond at Pahokee. The game will begin at 5:30 p. m.

The game was not started until Friday but rain prevented its completion. The games are proving interesting to those who are not able to attend the Everglades League games on Thursday and Sunday.

**Mayor Returns From Big Trip**

Tobacco is being grown in many districts in Florida. Mayor W. L. Larrimore of Pahokee observed during a trip through the north central part of the state last week, and in the country north of the citrus belt crops are better than good.

Mr. Larrimore made the trip with his wife's father, who was returning home after a visit in Pahokee, and he came back with Mr. Edge of Groveland, who was going to Miami.

The upper coast from Fort Pierce to St. Augustine is pretty quiet, made that way by the fruit fly menace and the usual summer slowness of business in that semi-tourist resort country.

"There is a fruit fly, never doubt that, and it has done a lot of harm and it can do more, but I think it is going to be controlled," Mr. Larrimore said. His conviction that the fly will be eradicated was based on his observation of the extent of the resources that have been mobilized against it and the thoroughness of the campaign.

The Cracker trucker always

## Official League Schedule of Games

The six clubs of the Everglades baseball league were due to start the second half of the series yesterday.

The schedule for Thursday, July 18, was: Brown Co. at Belle Glade, and Canal Point at Okeechobee. For Sunday, July 21st, the schedule was: Brown Co. at Canal Point; Okeechobee at Clewiston, double header; Moore Haven at Belle Glade, double header.

T. B. Gilbert, under authority of the board of directors of the league, has made up the following official schedule for the remainder of the season:

July 23—Canal Point at Belle Glade; Brown Co. at Okeechobee.

July 28—Okeechobee at Canal Point; Brown Co. at Moore Haven, double header; Belle Glade at Clewiston, double header.

Aug. 1—Canal Point at Brown Co.; Belle Glade at Okeechobee.

Aug. 4—Clewiston at Canal Point, double header; Moore Haven at Okeechobee, double header; Belle Glade at Brown Co.

Aug. 8—Canal Point at Okeechobee; Belle Glade at Brown Co.

Aug. 11—Clewiston at Moore Haven, double header; Belle Glade at Canal Point; Brown Co. at Okeechobee.

Aug. 15—Brown Co. at Canal Point; Belle Glade at Okeechobee.

Aug. 18—Moore Haven at Canal Point, double header; Brown Co. at Clewiston, double header; Okeechobee at Belle Glade.

Aug. 22—Canal Point at Belle Glade; Okeechobee at Brown Co.

Aug. 25—Clewiston at Canal Point; Belle Glade at Moore Haven; Okeechobee and Brown Co. play off.

Aug. 28—Canal Point at Okeechobee; Belle Glade at Brown Co. play off.

Sept. 1—Moore Haven at Canal Point; Clewiston at Belle Glade; Brown Co. at Okeechobee, play off.

Sept. 5—Canal Point at Okeechobee; Belle Glade at Brown Co. Exhibition games or play off.

Sept. 8—Okeechobee at Brown Co.; Clewiston at Moore Haven; Belle Glade at Canal Point, play off.

Oct. 2—Okeechobee at Moore Haven; Brown Co. at Clewiston; Clewiston at Moore Haven.

Where teams are idle, an exhibition game can be arranged, but if these teams have been rained out, these dates can be used for the play off as mentioned in schedule.

There are fifteen official games and each team is to play each team three times.

Great Progress If We Get By Without Storm

Great Progress  
If We Get By  
Without Storm

Continued from Page One

phone and telegraph lines and electric power lines.

All of this in less than a year after a great disaster.

The steadfast perseverance of B. G. Dahlberg was the chief incentive to the enterprise out of which this progress came, for his adherence to a program warranted the Florida East Coast and Atlantic Coast Line Railway companies in extensions that will have a far-reaching influence on the development of other portions of South Florida.

Sugar cane is not attacked by the Mediterranean fly, so that menace to the prosperity of other sections and industries does not extend to the Southern Sugar Company operations in the upper Everglades, and there is no apprehension that the fly will hurt the production or sale of vegetables from the muck lands.

It is sufficient of the mental attitude and general outlook of the residents of this section that although elsewhere there are complaints about taxes and objections to bond issues, the land owners of the Pahokee drainage district, meeting last week, authorized the supervisors to enter negotiations for the construction of another canal by a practically unanimous vote.

Like Okeechobee is at an elevation only slightly above 13 feet. Rainfall has been of an amount which, if an average for the season is maintained, will not exceed the capacity of the lake to hold. All of the spillways at the outlet ends of the canals are wide open and by the adoption of that policy the lake is made capable of affording storage to even an abnormal rainfall in the season. Not even a storm can cause the lake to overflow.

Crack growers have developed the practice of having a piece of low land and a piece of high land, to be prepared for any kind of a season. They have land dry enough of with enough moisture no matter what happens. It is in accordance with that practice that so much land is being cleared.

HELEN BLAZES!

One of Doc Fern's patients lay in the hospital after an operation and found the blinds in his room drawn.

"Why are those blinds drawn, nurse?" he asked.

"Well," said the nurse, "There's a fire burning across the alley and I didn't want you to wake up and think the operation had been a failure."

AN EXPERIENCE IN  
PEANUTS

"As a subscriber I like to read of the experiences of others better than to write of my own experience."

After harvesting beans the third time I planted peanuts between the rows, sometimes two rows between a 3-foot bean row.

I hulled all the Jumbo before planting. I put a part of the little white Spanish in the hull; with a little care the planter handled them all right. Then a good soaking rain helped them to come up nearly as soon and fully as good as those hulled.

One trouble about hiring a negro to hull a big sack for cash is that said contractor sub-contracts to others to hull them on shares, so one is held in the office of County really feeding all the help in the quarters while they slowly extend time of hulling.

One trouble about hiring a negro to hull a big sack for cash is that said contractor sub-contracts to others to hull them on shares, so one is held in the office of County really feeding all the help in the quarters while they slowly extend time of hulling.

One trouble about hiring a negro to hull a big sack for cash is that said contractor sub-contracts to others to hull them on shares, so one is held in the office of County really feeding all the help in the quarters while they slowly extend time of hulling.

chines here that pick off many sacks daily. As fast as farmers get ready to raise hogs it will certainly pay to raise peanuts for them.

Will be glad to hear experiences of others on any crops. I lost on late beans and tomatoes; made on early beans, corn, blackeyes and have good prospects on peanuts.

COUNTY GROWERS  
PICK NEW OFFICERS

WEST PALM BEACH, July 17.—Election of officers for the ensuing year and the appointment of a board of directors was the principal business last night at an adjourned meeting of the Palm Beach County Growers Association, held in the office of County Agent M. U. Mounts.

Roland Hoffman, West Palm Beach nurseryman, was elected president of the association. Mr. Hoffman has conducted nurseries in this section for a number of years at Long Military Road. At present he is conducting experimental planting at the Hypoxylon island home of John Deamarest.

A. E. Fritz, Lake Worth, was elected vice-president and John A. Wilde, local farmer, was re-elected secretary-treasurer.

W. C. Dady, commercial agent of the Florida East Coast Railroad, told the assembled growers that the coastal transportation company was heartily behind the movement of the Palm Beach county growers; that the rail service was ready to cooperate with the movement and had secured land for the erection of packing houses at Boynton and another strategic positions in farming sections.

S. W. Hunt associated with the Lake Worth Drainage District, addressed the meeting on the importance of reputable agencies to the grower and the producer.

Members of the board of directors elected: M. U. Mounts, county agricultural agent; J. A. Baker, Boynton; H. E. Buzell, Plutz, Delray; E. A. Buzell, West Palm Beach; E. R. Clark, Canal Point and J. R. Poland, Canal Point. C. B. Savage was elected chairman of the board.

Two vacancies were left on the board of directors to be filled at a later date.

Detective Agency

### CANAL POINT

Mr. and Mrs. A. H. Hamrick spent a few days in Madison, Fla.

Mrs. Roy Shaw accompanied her mother to Cocoa and spent a week there.

Mrs. John V. Thomas and her brother, Kurt Lee, left yesterday for Marianna, her old home.

Mr. and Mrs. L. D. Geiger spent two weeks visiting friends and relatives in middle and south Georgia.

Mrs. V. D. Horn accompanied Miss Jenkins to Bluffton, Ga., and will spend several weeks with her before returning.

Mrs. T. R. Higgins and son, who had visited her brother, J. W. Strickland, left Monday for their return to their home in Miami.

Mr. and Mrs. Strickland, accompanied by Mr. Thompson, have been visiting for two weeks in Jacksonville and places in South Georgia.

Mr. Redick left for Cocoa Saturday where his wife will join him before going on his vacation. Mr. Collier will replace Mr. Redick while he is away.

Miss Catherine's Buchanan left this week for Sarasota to visit her mother. Mrs. Jack Barrett, Mrs. Fred Hamd and Mrs. Vincent Stadnick took her over there.

Mr. and Mrs. J. E. Barnes of Swainsboro, Ga., have arrived to take up residence on East Beach. He is a printer and will be employed in the office of "The Everglades News."

Ed Harris, whose wife died two weeks ago, left for the north Monday. J. C. Butler has taken over his place on the lake front road. Mrs. J. Tesh is taking care of the Harris baby.

Miss Mildred Sevon, a stenographer who did some work in the office of "The Everglades News" last week, has returned to her home in Lake Worth for a few days.

George Potts and family are taking a vacation and are visiting their old home, Humboldt, Tenn. On his return in a few weeks he will resume his position at the Canal Point Garage.

Mr. and Mrs. H. L. Speed have returned from Dahlgren, Ga., and Leslie, Ga., where they visited brothers and father and on their way home stopped at Thomasville and Gainesville.

E. P. Woodward, representing the Virginia Lumber Extract Co. of New York, called on merchants in the upper Everglades. He is a brother-in-law of A. L. Pope, and Mr. Pope having married sisters, Australian pines have been planted throughout the town site on the north side of the canal. The trees were brought over and set by a crew from Clewiston, sent by F. Deane Duff, manager of the sugar company's townsite.

Mr. and Mrs. W. J. Marsh have moved to Earl Wolf's cottage near the school house. Mr. C. R. Wetherington is home again from the hospital at St. Augustine. His wife and children, who have been visiting her mother at Alachua, came with him.

By his standstill work E. P. Woodward, the lockholder is getting a fill made around the lock and the canal bank raised to levee height. With the canal bank raised, the townsite will be protected from flooding even if winds bring the lake to high level.

Work on the sugar company's twenty dwelling houses in the townsite north of the canal was interfered with by the showers last progress is being made. Roofing is being put on some of the houses and others are being painted while foundations are being laid and work over there.

Ed Simmons found a slot machine with 25 nickels in it while he was loading sand on the north bank of the canal. The slot machine was broken up so that it was a wonder that the coins remained in it. The machine had not been washed in by a flood for the water never got that high; it probably was there when that was stolen a year or so ago when some one broke into the Lakeview cafe. Mr. Simmons is now loading sand from the old site of the printing press under the cypress tree. He has been warned to be on the look-out for \$20 gold pieces and \$100 bills that might have dropped out of a caller's pocket when he was paying subscription.

Carl Shold, who is also known as "Jimmy," got back to Canal Point Monday afternoon, driving back from Cleveland, Ohio, in the Ford car he went north in April, the car that W. E. Dowdy sold him three years ago when Dowdy thought the car was worth less. When Carl got back with his crop last spring he sold his mule and cranked

## TOO FEW PRESENT TO INCORPORATE

Project Held To Be Untimely,  
It May Be Taken Up At  
A Later Date

An attempt at incorporation of areas adjacent to the Canal Point post office failed Monday night when the meeting was adjourned without action because of the non-attendance of enough qualified voters to meet the requirements of the law.

Just how many qualified persons were present was uncertain because of the uncertainty as to what constituted eligibility and because some persons present on the grounds did not enter the school building. It was understood, however, that the presence of upward of thirty persons was necessary to give the meeting legal effect and less than that number were in the room.

There were two or three lists of purported eligibles but they did not agree.

The small turnout was due in part to the tactics of the opponents of incorporation, their absence contributing to the failure to get sufficient attendance for action.

A part of the opposition was on the ground that although incorporation is desirable, this was not the time for it.

### ADMINISTRATOR

L. R. O'Steen was applied to the probate court for appointment as administrator of the estate of the late L. M. ("Dad") Leonard of Canal Point. The date of hearing on the application is August 10.

### COMMUNITY GOSSIP

Old things were best? May be so, may be not. But do you men remember those

Some men don't wear socks because they don't like the money in a slot machine. There is a man in Canal Point who would make a good character for a newspaper cartoon strip.

In Canal Point there is an automobile with a Washington, D. C. tag on it. A stranger in town who saw the tag wanted to know if Hoover was visiting here.

Some banks are reported to have closed somewhere in the state this week and there is talk of war in China and one interprets the Everglades as much as the other. Everglades survived bank trouble in West Palm Beach and they are not affected by what happens still farther away, and what the fruit fly has caused elsewhere doesn't affect us because we have no fruit and no fly.

### IN LIEU OF GOLF

By Howard Sharp

May be I take it too hard, but I am saddened and disappointed sometimes when I go through my mail and start the replies to letters. This is a prosperous nation and a prosperous local region, we here at the Glades, are full of happiness and all that, but there are vain hopes and disappointments and bitter-nesses, too.

Here is a letter from a settler in the Glades, a fine man with a fine wife, good citizens. They live at a remote point, and he writes: "We are physically sick over the present rural situation and if you have a ray of hope we will appreciate your passing it along to us to soothe our aching souls." I cannot see a ray of hope for them; there isn't enough money to build all the roads that are needed to meet the requirements of cases such as this, and it seems to me better to tell the truth than to hold out hopes that cannot be realized upon when in a length of time that can be estimated now.

A man is to lose a position, a political job, and he writes to ask that I try to hold it for him, and I cannot do it. He played his politics and he lost.

The mortgage on another man's home is being foreclosed, but he forgets that he might have applied as a mortgagee on it the money he spent for an automobile that he could have gotten along with. I cannot help him; I have no money to lend him and I do not know of anyone who has.

A woman who lives in another state has a 10-acre tract in the Everglades; a member of the family is sick and she needs money for the hospital bill, and she commands me to sell the land for her. I am sorry for her, but I am not in the real estate business and I cannot sell her land for her.

I am glad to do things for people when I can, and I do find time for services, and what I write now is not a complaint; it is merely a confession and a reminder that this is still a world of sin and suffering, despite the radio and the "talkies," automobiles and good roads. There aren't enough good things to surround in the full measure of human desire.

Senator W. D. Bell of Arizona has a knack of clever expression. Speaking to the Kiwanis Club of Arcadia, he referred to the last session of the legislature as "the late unpleasantness" and said a legislature is the auditing department at Clewiston. Henry Kolstad has become manager of the commissaries.

Walter McLin of Tallahassee, Leon county's representative in the 1929 legislature, has been appointed state motor vehicle commissioner and is the man who will issue the automobile license tags. His family was originally from Virginia and the name is pronounced Macklin, with the accent on the Mac. Around Tallahassee, where he was raised, he is known as "Buddie." His father, B. E. McLin, was a commissioner of Everglades drainage district and a trustee of the internal improvement fund and died while serving as state commissioner of agriculture.

"Buddie" McLin is a friend of the Everglades and any Everglader who goes to Tallahassee and introduces himself as being from this section will get a friendly greeting.

### PEOPLE WE KNOW

W. B. Farrow, who was in the vegetable deal last season, is now at Columbia, Ala., having gone there recently from Eufaula, Ala.

Guy Stovall writes from Vinton, Louisiana, for his paper to be sent to him there. He adds: "Good farm lands are hard to come up to the Glades." Atta boy.

Guy Sharon of Pahokee is at Candler, N. C. He says the weather is cool there, which implies that he is trying to get all of the satisfaction he can out of being away from Lake Okeechobee.

Louis Vertommen, who lives east of Pahokee, has received photographs of his brother Edward Vertommen, who used to live in Canal Point and who is now living in Detroit, where he has a store. He is a son of Mrs. E. L. Wouters. It has been three years since Edward was here.

J. D. McLarty, an employee of the telephone company, is now in Atlanta, Ga., where his address is 1105 St. Louis Place. He writes that he will be there through September and "then back to the land of sunshine and flowers." He hasn't been getting The Everglades News lately and he's worried about it and that's the reason he's writing.

W. I. Bates, the International Shoe Co. salesman who has the Peters line in this territory, is a brother-in-law of Rollo D. Taylor of Palm Beach and they made a trip through the upper Everglades last week. Mr. Taylor is employed by the Florida East Coast Hotel Co. at Palm Beach; he has been in the employ of the company for more than thirty years although he is not an old man now, and for many years he has been the Palm Beach town clerk. Most Evergladers know (at least by sight) the Mr. Taylor who is custodian of the court house; Rollo is his son.

HARDWARE AND PAINT STORE

# NEWS FROM AROUND THE BIG LAKE

## SOUTH BAY

July 16.

Messrs. Scott and McKinney of West Palm Beach, Florida Power and Light Co., were in South Bay this week and in an interview with V. C. Denton stated that they were temporarily held up between Pahokee and South Bay, due to not as yet having received the right-of-way through several non-resident owned sections. They expect to have this matter ironed out shortly and will then proceed. They will be able to give light and power service to all persons living along the right of way.

Chalker & Lund, who have the contract for the new junior high school buildings, have already started work as they have had the site run down and leveled off and had a bunch of surveyors on the job Sunday laying off the ground and running their levels.

J. M. Taylor spent last week at his home in Lakeland. He reports that people in that vicinity are quite optimistic regarding conditions and expect to have a big year.

The Mutual movie did not hold its regular program last week on account of the non-arrival of the film, which

was a great disappointment to all.

A. O. Walker and family have returned to their home after a very pleasant visit through Georgia, Alabama and West Florida. Mr. Walker's parents, Mr. and Mrs. Charles Byrd, and sister, Nelle accompanied them home with the expectation of locating here.

Mr. and Mrs. Walter Templeton, who made a short visit at the home of Mrs. L. L. Hartline last week, have returned to Sarasota to stay with Mr. Templeton's brother, who is at present in ill health. They were driving a new Chevrolet sedan and seemed to be enjoying their summer.

Mr. and Mrs. C. W. Grogan and nephew, Dick, of West Palm Beach, were one o'clock dinner guests at the W. C. Allen home last Sunday.

George Alberts is now sufficiently recovered from his injury to be able to resume charge of his station at the South Bay pump.

Miss Nelle Byrd of West Florida, who is visiting her sister, Mrs. Orb Walker, was the week-end guest of Miss Lillian Walker.

James Mather, chief engineer of this drainage district, is quite busy with the

surveying crew just at present.

Miss Phyllis Sherman is now in Miami visiting relatives and friends.

We note that Harold Clark who has been on the sick list for some time is able to be out once more.

H. Hart of LaBelle, accompanied by J. B. Hampton were recent visitors in South Bay.

While The Everglades News remained the same excellent paper as always during the absence of the editor while attending to his duties as legislator we note an added "spice" since the return of Mr. Sharp. We would have known he was back even had we not heard of his return as soon as we started to peruse the paper.

Mr. and Mrs. George Tedder have just returned home from a ten days trip to Deland, Gainesville, Tampa and other points. While absent they attended a family reunion at the home of Mr. Tedder's father and mother in DeLeon Springs. Besides the mother and father were present their nine children, grandchildren and great-grandchildren aggregating forty-four persons, four generations in which there has never been a death which is really quite a remarkable record.

The Baptists held their regular services at the school house Sunday afternoon. The work on the church is being pushed by Floyd Allen and M. D. Hardy and they expect to have the building soon nearly completed by the time for the next service on July 28th that they can hold their worship in their own church home. The first meeting of the B. Y. P. U. will be held Wednesday, July 17, at the school house at 8 p. m. All are cordially invited to attend.

Mrs. J. R. Hoch and Ruth, Dwight and Veda returned to Miami, Monday, after a two weeks' stay in South Bay and Belle Glade.

Mrs. L. L. Hartline and son, Ed, left Saturday morning early in their roadster for their vacation which they will spend in visiting relatives and friends in Birmingham and Round Mountain, Alabama. During their absence Mr. and Mrs. J. M. Templeton will have complete charge of the postoffice and locks.

The seats and other fixtures for the colored school

## BELLE GLADE

(By Miss Alice Reed)

July 17.

Lawrence Will suffered a broken arm last Friday while attempting to crank a truck.

Victor Kiedel, with his cousin, Carl Redmer of Lake Worth, has gone to Chicago for a visit with relatives.

Cards have been received here announcing the marriage at Yuma, Arizona, of Florence Estelle Nelson to Alfred Timothy Knoll. They will make their home at 912 Harding Drive, New Orleans, La.

Miss Florence is a daughter of the late Walter Nelson, and with her brother, Wesley Nelson, will be remembered by all of the earlier residents here.

Jay N. Morris is putting the finishing touches to his handsome home here, and his family have moved into it. They have been living in West Palm Beach since last September.

Mr. and Mrs. Wm. J. Ketchin of Fort Lauderdale were business visitors here Tuesday. They report that the one hundred and ten acres of peanuts on the farm and the tobacco under cloth are doing well except for the weeds which have sprung up since the rains began. Mr. Ketchin

arrived the latter part of the week and school opened Monday. The teacher has been in the vicinity for several days and is located in the colored quarter.

The Farnum home was broken into about a week ago and the contents scattered about. Since the family is absent it is not known what may be missing, if anything.

Mrs. Vivian McCollister, who has been visiting her brother, W. C. Allen and family, for some time expects to leave for New York City in the near future.

The Misses Frances Ratley, Edith Willits and Edith Scogins were guests of Miss Ruby Crocker on Sunday.

Mr. Jacobson, local superintendent of the Southern Sugar Co., who has been on a tour of eastern points, writes that he will be glad to get back to the Florida Everglades where it is cool. He has spent some time in New York and Washington and other points and states that he has yet to find the thermometer below 90 degrees. He would have been back Monday but was so unfortunate as to have a head-on collision near Washington last week which damaged his car and necessitated a delay of a few days.

Engineer W. C. Allen is now operating the pump at the Barf Beach Station and will continue to do so during the rainy season.

The Home Demonstration Club met at the home of Mrs. L. L. Hartline last Thursday. Quite a number of members were out and they enjoyed a very enthusiastic meeting. The subject for discussion was decorated note books with futuristic designs. The next meeting will be at the home of Mrs. H. C. Willits.

Two colored men, A. Clark and T. Stone, broke into the Herring residence recently and appropriated some clothing and a shot gun. Deputy Sheriff R. G. Fisher upon being notified of the theft, immediately gave chase and caught the offenders without difficulty, recovering the shot gun but failing to find the clothing. The negroes were temporarily lodged in the Belle Glade jail and moved to the county jail Sunday.

The social event of the week among the younger set was a charming party at the spacious home of the Willits at which all the young ladies

## BELLE GLADE

(By Miss Alice Reed)

is an enthusiast as to the use of tobacco cloth tents for protecting highly specialized crops from insects and frost and of the possibilities of tobacco growing in the Everglades.

A petition is "being circulated asking that Dr. Thos. E. Will of Fort Lauderdale be appointed on the enlarged Everglades drainage board. Dr. Will is one of the best fighters for the Everglades the region ever had and knows the country better, probably than any one else.

The Kelvinator people are putting on a demonstration at the Super Service Filling Station.

M. Brogren left Monday for a summer vacation. He will visit in several states before returning.

H. C. Brogren will leave for Calhoun, Ga., next week for his vacation.

The "Big Lake" 5 and 10 store operated by Rhyme & Howell is the name of a new business house being built between the Glades Supply Co. and the Better Service Garage.

The Home Demonstration Club hold their regular monthly meeting Thursday with Mrs. S. G. Parker.

South Bay and a number of out-of-town guests from Clewiston and West Palm Beach were guests of the Misses Betty Willits, Frances Ratley and Ruby Crocker. All present enjoyed a most delightful evening and voted the young ladies most accomplished hostesses.

Mrs. Hawkins and daughter Dalo of Kelsey City are guests of Mrs. Joe Lockmiller. They had expected to return home on Monday but remained in order that Miss Dalo might attend the party given by the Misses Betty Willits, Frances Ratley and Ruby Crocker.

## CLEWISTON

July 16.

At a meeting of the Clewiston Post No. 93 of the American Legion last week, it was definitely decided that formal installation of officers would take place at the next meeting on August 6. It is expected that the district vice-commander and other official representatives from neighboring posts will be present to participate in the festivities. F. Deane Duff is adjutant and G. L. Sims is adjutant. A motion to accept the resignation of Sims, who has been transferred to Canal Point by the Southern Sugar Co., was defeated. Dick Miller, chairman of the membership committee, is to put on a drive to sign up all eligible service men, before closing the charter membership. Colors and insignia were ordered purchased.

A fine fight card arranged by the Legion promoter, Ed Butler, found favor with the fans at the sugar mill warehouse Wednesday. Several knockouts featured the preliminaries, and the final, a ten-round slugging affair, between Pete Morgan the local prize, on the short end of a decision for the first time in his short career. Skeetman Barwick, west coast battler, stayed away from Pete in the early rounds, and finished with a rush to win.

Local baseball fans who were not frightened away with the early afternoon threat of rain, certainly got their money's worth Sunday when the closing games of the first half of the Everglades League season were played at Owen Field. The Moore Haven club, under Cecil Parkin-

son, a new manager, displayed much the best brand of ball they have played since losing in winning the first game 4-3 in seven innings. Walker and Silsby tied up in a hurlers duel with nothing to choose between them, but erratic pitching kept the home club in the game. In the second game, scheduled to go seven innings, the Cane Crew, though they threw away chances for a flock of runs by dumb base running, held a one run lead to the final inning, when three bunched hits tied the score for the visitors. Both teams scored again in the ninth, Moore Haven on a wild throw to first, and the home team on Bolton's triple to the schoolhouse.

Both teams went scoreless for the next three innings, though the Cane Crew had men on third in every inning. In the thirteenth, the best scored for Moore Haven by some spectacular baserunning, and the home club went out in order, losing 3-2. W. C. Owen, chief engineer of the Clewiston Co., has assumed the management of the local club, which is in process of being reorganized for the second half of the Everglades League schedule.

## OKEELANTA

July 15.

Since Okeelanta appeared last in print the community has been visited by the "medicine man" from Canal Point, also by Sam Copper, who takes the regular temperature readings automatically registered in those mysterious white boxes.

A few of our residents enjoyed the Fourth of July, Glade, reporting a general good time.

A long felt need has been at last supplied by the county in providing this vicinity with a serviceable barge, which lessens the labor and danger in the transfer of heavy machinery and truck crops from one bank of canal to the other. The Hutchinson tractor was the first to be moved from east to the west side of North New River canal last Thursday.

Oscar Knutson and young son spent the week-end with his father, Peter, who is about ready to move into his new hurricane-proof residence. Son and grandson returned to their home in Miami after a trip to Clewiston on Saturday.

Harry Steitzel and wife and two sons from Chicago arrived here the end of the week. They aim to spend their annual vacation with the parents and grandparents, the Anjimas. The Everglades like the mountains, are the best restoratives for the "frazzled" nerves of our city dwellers if they only knew it. "An apple a day" is the saying, keeps the doctor away, and a stay in the Glades delays the sexton's spades.

It looks as though the old townsfolk has not lost its attraction to the squatters. Ten locations have been made on the west side of North New River canal from south to north the names run as follows: Thomas, Wisdom, Arant, Compton, Hawkins, Doolley, Webb, Evans, Taylor and Wisdom. The Okeelanta pioneers wish these venturesome newcomers all manner of success. Ten and twelve years ago this whole acreage was under productive cultivation, and we hope to see it so again.

It is a waste, yes, a sin, to let such land revert to jungle. The next thing to do is get after our county board to give us a better road between Okeelanta and South Bay. The thousands who invested in the land on the south shore of the lake since 1909, and on, have paid enough in taxes to sur-

face this highway with silver dollars, having still some left for Dixie highway.

Not a single car visited our town last Sunday, due largely to the poor state of road.

Peter Kuntson, who lost his home on the old townsfolk, and almost his life in the hurricane of last year, will make another attempt at trucking on or near his former claim this fall.

Mr. and Mrs. Andrae from Boca Raton drove in last Monday to spend their customary weekly vacation in this vicinity.

S. R. Copper drove in from Shawano the first day of the week, having as passenger, John Newhouse, who, like Sam, is one of the real pioneers of the upper Everglades. To Newhouse our burg has an "orphaned" appearance. Two hurricanes have swept over us since John's last visit. No wonder we look some "frowsted," but there is some "pep" left yet.

## TOO MANY ALIENS?

Are too many Mexicans and other foreigners coming into the United States?

In Sacramento, Cal., there is an organization under the name Immigration Study

Commission which says Yes to the question.

The Immigration Study Commission issues leaflets and other literature and seeks support for its campaign. Persons in sympathy with its aims or who want more information can address it by the name here given at its office, Capital National Bank Building, Sacramento, California.

## CO-OPERATION and Successful Farming

THESE SIX POINTS ARE NECESSARY FOR SUCCESSFUL

FARMING:

1. Good Preparation—That's your job.
2. Good Fertilizer—We have it.
3. Good Seed—We guarantee ours.
4. Good Cultivation—We have the tools.
5. Good Spraying or Dusting—Our materials will do the work.
6. Good Marketing—Without a good pack and efficient marketing the other five points do not do much good. That calls for more talk.

IF WE CAN HELP YOU AT ANY TIME, CALL ON US.  
FRESH STOCK OF PEPPERS, EGGPLANT, ETC., ARRIVING DAILY.
